a family owned boutique hunter winery

## 2008 LIQUEUR SEMILLON

---

### “Liquid Gold”

The wonderful thing about Semillon is the amazing versatility it displays. Semillon can be found at Vinden Estate as a dry young table wine that shows wonderful grapefruit and lemon citrus fruits; ideal for light seafood dishes. Available as an aged toasty complex table wine, that shows citrus fruits, yet soft tree fruits and toasty nutty characters that intrigue the educated wine palate. It is also stocked in the cellar door as a lovely late picked dessert style (the Late Harvest Semillon or “Frozen Asset”), showing sweet apricot and tropical limes; just the ticket for those fruit based desserts. As yet another style, the Vinden Estate Botrytis Semillon is a fantastic rich style, that compliments sticky date pudding and Black forest Gateau !

Sandra and Guy have produced a fifth outstanding string to the bow with their 2008 Liqueur Semillon. Late picked Semillon was semi-fermented, before brandy spirit was added to bring the wine up to 18.5% alcohol per volume; a true fortified wine, but with a twist: it's light, delicate, and has just enough fresh fruit and brandy hints; the perfect winter aperitif or after dinner treat ! It makes you wonder whether Semillon is the only white grape we really need !

### Tasting Notes – Summer 2008

Light spirit and fresh tree fruits add just enough zing to this wine! Complex citrus sweet limes and tropical fruit salad lead to a satisfying spirit finish. Sit back in your arm chair and savour it slowly: life is good!

### Culinary Delights – WHAT TO EAT

Try a fresh farm house cheese platter after a meal, garnished with a selection of dried fruits and sweet cashew, almond, and macadamia nuts. Alternatively, enjoy this wine before a meal as a winter aperitif.

### Technical information

Oak Treatment –None  
Bottled 12th June 2008  
Alcohol – 18.5%  
Cellaring Potential—2015
